

# Being in Control of your Budgets

Budgeting can be a time-consuming and frustrating activity. Streamline this process with the **INFOmatch** Budget Module. It allows you to easily create next years budget based on historical data cost. Using the various what-if options, the actual budget can be tailored at all levels in the organisation tree. Changes are implemented with just a few mouse clicks and allow you to make repeated changes easily and effortlessly.

To facilitate market data professionals, INFOmatch incorporates the right tools to support the budget process. The Budget Module is an easy-to-navigate tool, seamlessly integrated in INFOmatch. Forecasting future expenditures and tracking variances between accrued cost and budget YTD has never been easier. With the Budget Module, you are and you stay in complete control!

- Easy-to-operate GUI as a basis for all your calculations
- Create budgets by Department, Cost Centre and Vendor with a click
- Individual budgets, automatically allocated to end users
- Track accruals versus budget YTD

**INFOmatch** is an innovative cost & contract management system and is used by firms in the investment management, banking, energy and commodity business around the globe. It is designed by market data specialists, who have more than 20 years of international experience, including more than 480 dealing room assignments. INFOmatch is a leading reporting and analytical market data system because of easy navigation, handling and storage of historical data and tremendous reporting facilities.

The result: the new dimension of control!
