

The new definition of
**Organisation wide
 Cost & Contract
 Management**

INFOmatch is an innovative Cost & Contract Management system that is used by firms in the Investment Management, Banking, Energy and Commodity business around the globe. It supports business critical processes, such as: User based cost allocation, (market & reference data) Inventory tracking, Contract management, Invoice forecasting and automatic reconciliation, Budgeting, Permissioning and entitlements, Business and Vendor reporting.

Designed for market & reference data stakeholders, Procurement, IT and Finance, INFOmatch is especially appreciated for its functionality, analytics, easy navigation and tremendous reporting facilities. INFOmatch is designed by industry specialists, who have more than 20 years of international experience in the Financial Service Industry, including more than 480 market & reference data optimisation assignments. The result: **Maximise Transparency, Minimise Cost**

INFOmatch Cockpit

- Market & Reference data administration
- Organisation wide cost & contract management
- Budgeting
- Software license management
- Invoice reconciliation
- Permissioning & Entitlements
- Business & Vendor reporting
- Audit & Compliance

Business Benefits:

- Create **full transparency** with respect to your (market & reference) data inventory
- Identify **savings opportunities** (typically 15% and more) and banish the paper flow, thereby improving your business performance metrics, such as TCO
- Easily monitor and **track key indicators**, such as income, cost and profitability per user/seat
- Have all key data with respect to contracts, budgets, costs and inventory **electronically available** to you and your management
- Dramatically **reduce the workload** related to managing market & reference data, such as checking vendors' invoices, keeping track of user profiles and associated costs as well as reporting back to vendors and exchanges
- Be **fully compliant** with vendor and exchange agreements
- By having your contracts stored and managed centrally, you put yourself in an excellent **negotiation position** towards vendors
